Mom's Helper App – For Single Moms

Mobile App

android

iOS

Need Help – https://www.youtube.com/watch?v=vDAONL5Aq_A

Provide Help – https://www.youtube.com/shorts/C_sdEtQ7yIk

We are a **501(c)(3) non-profit organization** here to help **single moms** after their baby is born. Why a mobile app?

- ***Pro Life*** , a great cause, does very little to support the Mom and baby once born
- Single Moms do not know about all the help that is available to them, info is scattered everywhere across several agencies and organizations
- People that want to help single moms don't know what resources are needed or how to get involved
- Mobile App organizes info in **ONE PLACE** for single moms and is kept up to date

My name is **Mark LaFond**; I am a professional Mobile App Developer with over 35+ years of expert level experience in Software Development (http://binarion.com/MarkLaFondTechPortfolio.pdf). After a recent interaction with a friend and learning that her granddaughter is a single mom, I decided to get involved.

Would you be interested in being a sponsor or a donor? We are organized as a 501(c)(3) so we can give you a tax deductible receipt for your donation. Please contact us if interested.

Thanks!
